NOTES:

- Hanna Fire Dept. responds with Hanna EMS. If Hanna EMS responds South or North along Hwy # 884 Hanna Fire will respond with Rescue Unit. Hanna Pumper will respond also until local fire department states that they are no longer needed for fire suppression but Rescue Unit will continue to incident with EMS. Fire suppression is usually done by closest fire department unless it cannot be contacted then Hanna Pumper will continue to scene.
- Consort Fire Dept. responds with Consort EMS. If EMS responds East or West along Hwy # 12 Consort Fire also responds with Rescue Unit. Consort Pumper will respond also until local department states that they are no longer needed for fire suppression but Rescue Unit will continue to incident with EMS. Fire suppression is usually done by closest fire department unless it cannot be contacted then Consort Pumper will continue to scene.
- Oyen Fire Dept. responds with Oyen EMS. If Oyen EMS responds north or south Along Hwy # 884, Oyen Fire will respond with Rescue Unit. Oyen Pumper will respond also until local fire department states that they are no longer needed for fire suppression but Rescue Unit will continue to incident with EMS. Fire suppression is usually done by closest fire department unless it cannot be contacted then Oyen Pumper will continue to scene.

Please note response areas on map. Only Hanna, Oyen and Consort have vehicle extrication tools in the Special Areas along with fire suppression. All other Special Areas Fire Departments only provide fire suppression.
